BUSINESS DATA ANALYST

Data-driven engineer with a Master's in Biomedical Engineering and extensive experience in operations analytics, process optimization, and performance reporting within the healthcare sector. Over 3 years of experience managing data-centric decision systems in healthcare services, integrating technical analysis with business insight to improve efficiency, quality, and compliance. Expert in data visualization, KPI development, and workflow automation, with a strong ability to translate datasets into strategic decisions that support evidence-based organizational growth.

CORE SKILLS & TRANSFERRABLE COMPETENCIES

Data Visualization & Reporting | Business Process Analytics | Performance Tracking | Operational Forecasting & Resource Optimization | Continuous Improvement & Quality Systems (ISO 9001:2015) | Compliance & Data Integrity | Problem Solving | Strategic, Data-Driven Decision Making | Teamwork

ACCOMPLISHMENTS

- Improved operational workflows by developing automated Excel dashboards consolidating around 150 client records, inventory, and scheduling data across healthcare services, enabling faster decisions and strengthening team collaboration.
- Optimized procurement processes by applying trend analysis and supplier performance monitoring, resulting in better resource allocation and reduced operational waste.
- Enhanced reporting accuracy by standardizing KPIs and visualization templates, improving efficiency by 5% and fostering clear communication across management teams.
- Strengthened data literacy and cross-functional teamwork by training clinical and administrative staff on standardized reporting and analysis tools, aligned with ISO 9001:2015 compliance.

PROFESSIONAL/RELEVANT/CAREER EXPERIENCE

MERCHANDISER | Bloomstar, Vancouver

09/2025 – Present

- Merchandised store shelves, coolers, and displays with fresh products, ensuring brand standards and visual appeal.
- Achieved 100% inventory accuracy and reduced product waste by 5% through strict stock rotation, backroom organization, and proactive sell-through monitoring.
- Processed shipments on time and ensured compliance with company merchandising standards.
- Collaborated with an 8-member team to resolve stock issues, ensuring customer satisfaction and compliance

OPERATIONS MANAGER | Nefromedic, Quito

09/2023 – 12/2024

- Implemented process improvements that raised client satisfaction levels to 90%, focusing on scheduling and service quality.
- Developed Excel-based dashboards that increased visibility of KPIs by 90%, supporting faster and data-driven decision-making.
- Optimized healthcare resource utilization by 10% through redesigned workflows and standardized operational processes.
- Ensured compliance with ISO 9001:2015 quality standards, preparing the organization for successful internal audits.

- Achieved 90% compliance with the preventive maintenance plan, improving biomedical equipment reliability and reducing downtime.
- Standardized maintenance procedures under ISO 9001:2015, strengthening safety and regulatory alignment.
- Supervised and trained a team of 3 technicians, ensuring adherence to protocols and timely corrective actions.

- Conducted statistical and computational analysis of seismic datasets using MATLAB.
- Supported research on the detection and classification of seismic signals.
- Contributed to 3 scientific publications, reinforcing academic expertise in data analysis and reporting.

EDUCATION

Master of Business Administration (MBA) University Canada West, Canada	(2026)
Master’s Degree in Biomedical Engineering Escuela Superior Politecnica del Litoral, Ecuador	2021
Bachelor’s in Electronics and Telecommunications Engineering University of Armed Forces, Ecuador	2016

CERTIFICATION & PROFESSIONAL DEVELOPMENT

- Certified Digital Marketing Associate | Digital Marketing Institute2025
- Excel Essential Training (Microsoft 365) | LinkedIn Learning2025
- Internal Auditor ISO 9001:2015 | SGS Ecuador2023
- Transformational Leadership & Strategic Coaching Program | Universidad de los Hemisferios2024
